

Not much has changed here except the parallel studying now means the list for each day might be a lot longer.

There is also no need for the word 'Study' or 'Review' to be included.

What's new:

- There is a red zoom icon next to the topics which have had their tasks list set up.
- There is a grey zoom eye icon next to topics which are 'open' to have the topics set up but have yet to be set up (see LL spec for more details on 'OPEN' topics)
- When you tap on the RED zoom icon, the popup on the right shows with just a few tasks shown. When you tap on 'View All' it takes you to LL, ideally scrolled to the relevant section if the list is long.
- When you tap on the GREY zoom icon, then it takes you to LL.
